

# The Phone System for Modern Healthcare

RingRx offers the best quality phone system on the market. Stay a step ahead by delivering exceptional service your patients deserve and expect – with the affordability you need to stay profitable. RingRx is a completely proprietary platform designed from the ground-up as the world’s first fully HIPAA compliant phone and communication system.

## Features

### Office Phone System Features

Improve practice efficiency with a customized, easy-to-use communications system. All RingRx systems come fully featured with desk phones, mobile extensions, menus, voicemail, professional greetings, and dozens of business class features. (See attached for a full list.)

### Mobile App

The RingRx mobile app offers you truly revolutionary freedom and improves your practice’s efficiency like no other product or service. Take or make calls *from anywhere*, at your convenience. And best of all, you can call patients without being blocked.

### Faxing

RingRx’s web-based faxing service is easy, reliable, and saves big money. You don’t need a separate fax line anymore. All incoming and outgoing faxes are stored in your account *indefinitely* — just the service your staff needs to minimize clutter and maximize productivity.

### On-Call System

RingRx’s built in On-Call system routes urgent calls to the right doctor on the right device. Unlike traditional answering services, our On-Call system eliminates errors. Unlike traditional answering services, our On-Call system eliminates errors and won’t set you back with unnecessary costs. It’s included!

### Compliance

Managing ongoing compliance revolves around ensuring everything is managed through orchestration frameworks with constant enforcement against a known baseline, in conjunction with massive log harvesting and analytics from all platform elements, with effectively a zero error tolerance threshold.
